## After Receiving Question Paper and OMR

- ▶ The School Coordinator should immediately open the packet and cross-check the 'Number of Question Papers' with the 'Number of Participants,' class-wise. If there is any discrepancy, the Coordinator can make photocopies, which we will accept at our end. It's crucial to keep the question papers safely with the Principal until the examination begins.
- ▶ Please note that new or additional students cannot replace absent ones. However, you can add new students in the provided Response Booklet using the additional OMR answer sheets in this packet.
- ▶ Upon receiving this packet, the School Coordinator must promptly inform the Foundation via Phone, E-mail, or SMS, indicating the respective SCHOOL CODE.

## Guidelines before Examination

- ▶ Ensure that participants and their parents are informed about the Olympiad date and timings at least one or two days beforehand. This will help ensure maximum attendance.
- ▶ Distribute the 'Enrolment Tickets' to all participants. These tickets should be kept by the participants for online result checking.
- ▶ Prior to the examination, kindly create a 'Sitting Plan' and assign specific duties to teachers / examiners in advance.

## Instructions to the Participants

- ▶ Participants must have the "ADMIT CARD" with them in examination days.
- ▶ After receiving the question papers, participants must ensure to write their 'ROLL NO.' and 'NAME' correctly on the Question Paper.
- ▶ Please mark the correct question paper set (A, B, or C) on the OMR sheet.
- ▶ Participants are not allowed to use calculators, mobile phones, or any electronic devices during the Examination.
- ▶ Each question has only one correct option, and there is no negative marking.
- ▶ Once the examination begins, no explanations should be provided for any questions to participants in Classes III-XII. For Classes I and II, the examiner may read the Question Paper aloud and assist them in understanding it.
- ▶ OMR should be filled correctly.

## Checklist to Return after the Examination

- ▶ Return the OMR Sheets for all classes altogether, including classes I to XII, to the Foundation.
- ▶ Ensure that the 'Response Booklet' is filled out completely, including the attendance, attendance summary, and any name corrections.
- ▶ Kindly mark the attendance of all participants in the provided 'Response Booklet'.
- ▶ Make sure to count the number of answer sheets for each class and complete the 'Attendance Summary' sheet in the 'Response Booklet'.
- ▶ Arrange the answer sheets in the sequence of Class, Section, and Roll Number.
- ▶ Don't forget to sign the 'INVIGILATOR'S SIGNATURE' column on the Answer Sheet.

## About Result

- ▶ You can expect the results to be declared in February - 2026.
- ▶ Once the result is declared, it will be sent to the school along with other related documents.
